EMERGENCY PREPAREDNESS

BE PREPARED FOR AN EMERGENCY:

1. Create an Emergency Plan. Contact your local American Red Cross Chapter for information on potential disasters in your area.

Register to receive SMART 911 Alert messages at www.newprov.org

1. Put your plan down on paper and practice your escape plan once a month.
2. Designate an emergency meeting place in case you are separated from family members.
3. Prepare a Disaster Survival Kit.

The next time disaster strikes, you may not have much time to act. Whether the emergency is a power outage, winter storm, fire, hurricane, flood or thunderstorm, the best thing to do is to prepare now. Speak with your family members and prepare an emergency plan. Include special provisions for children and for any disabled family members. Remember, your children may be in school during the emergency. Once you have devised a plan, be sure to post it in your home so that all family members can refer to it easily. More importantly, practice your plan once a month by holding emergency escape drills. Test your smoke and carbon monoxide detectors and change the batteries regularly. Be sure to keep an up to date disaster survival kit . The following list will help you get started:

- Flashlights
- Battery operated or crank radio
- Extra batteries (fresh)
- Bottled water (1 gallon per day per person for 3 days)
- Sanitation supplies (bleach, etc.)
- Canned goods and non-perishable items (3 day supply)
- Manual can opener
- Candles and matches in waterproof container
- First Aid Kit and Prescription Medications
- Extra pet supplies
- Cellular telephone (if available)
- Special items for infants, elderly, or disabled family members.

Register disabled family members with the New Providence Police Department (Susan DeLuise @ 908-665-1111)

THREE IMPORTANT STEPS to follow if there is an emergency:

1. **REGISTER FOR SMART 911 Alerts at www.newprov.org**
2. **CHECK EMERGENCY NOTICES at www.newprov.org**
3. **FOLLOW INSTRUCTIONS OF EMERGENCY OFFICIALS VIA SMART 911** -You may be asked to take shelter or you may be asked to evacuate.

Sign up for SMART 911 Alerts

OFFICE OF PLANNING & DEVELOPMENT
 CONSTRUCTION/FIRE SAFETY/ZONING
 908-665-1098
www.newprov.org

BUILDING SAFETY IS NO ACCIDENT

The Borough Office of Planning & Development reminds you to contact their department before you plan a construction and/or development project. The following is a partial listing of projects which usually require prior approval and a zoning and or construction permit:

Building or installation of the following items: Decks, patios, covered patios, fence, garages, chimneys, ventilation systems, heating or air conditioning, supply or exhaust systems, swimming pool, or sheds.

Changing or additions to rooms: Including but not limited to kitchen, bathrooms, basements, demolition of or installing walls, converting garage, enclosing porches and dormers. Any plumbing or electrical changes such as replacement of gas or oil fired equipment, service upgrades, etc.

Demolition: Any structure, or part of a structure, and or any other changes that affect a structure. Sheds or in-ground pools would be included as well, as this would ensure that the structures are removed from the tax rolls.

Zoning & Land Use: Zoning review is a prerequisite to some construction permit applications. Zoning requirements are available on our website or by calling our office at (908) 665-1098. Questions regarding board applications, drainage or grading call (908) 665-1124.

Home Improvement Contractors must be registered with the Division of Consumer Affairs to work in the State of New Jersey.

NEW PROVIDENCE FIRE DEPARTMENT

Chief Vincent Wycko

What is Carbon Monoxide?

Carbon monoxide, or CO, is a colorless, tasteless and odorless gas. Because it can't be seen, tasted or smelled, its toxic fumes can kill you before you are even aware that it is present in your home. At lower levels of exposure, CO causes mild effects that are often mistaken for the flu, with symptoms that include headaches, dizziness, disorientation, nausea and fatigue. The effects of CO exposure can vary greatly from person to person depending on age, overall health, and the concentration and length of exposure.

Carbon Monoxide Detectors

Install at least one UL (Underwriters Laboratories) listed carbon monoxide detector with an audible warning signal outside of each sleeping area of your home. Carbon monoxide detectors measure levels of CO over time and are designed to sound an alarm before an average healthy adult would experience symptoms. It's possible that you may not be experiencing symptoms when you hear the alarm, but this does not mean that CO is not present. If you have any **NON-EMERGENCY** questions, call New Providence Fire Prevention (908) 665-1098.

IF YOUR FIRE ALARM SOUNDS, CALL 911 AND EVACUATE THE BUILDING

Prepare for Fires at Home

- At a minimum, smoke detectors should be located on every floor level and not more than 10 feet from each bedroom. For additional protection, smoke detectors should be placed inside of each sleeping area.
- If your smoke detectors were installed 7-10 years ago, you should consider replacing them.

REMEMBER: CHANGE YOUR CLOCK, CHANGE YOUR BATTERY

SPECIAL BULK COLLECTION (ONE TIME PER YEAR)

Bulk Collection occurs once a year in June.

Please check pages 3 and 4 for bulk collection dates and street listings by zone.

The borough contracts annually for a special collection of what is generally known as bulk collection. **Bulk Items** are items that are too large to fit in a regular garbage can, such as rugs, carpeting, and split-rail fencing (cannot be longer than four (4) feet in length and must be rolled and tied in liftable bundles), furniture, mattresses, household items, etc. Small items must be placed in a bag or container—*do not put loose items at curbside*. Please see section below for items that will **NOT** be collected with bulk.

**IMPORTANT: YOU MAY NOT DROP OFF THE BULK ITEMS ABOVE AT THE DPW YARD!
THEY MUST BE PUT AT THE CURB FOR PICK UP BY THE GARBAGE COMPANY.**

All materials for disposal must be placed curbside, separated from normal household garbage, grass, brush materials, and recyclable materials, by 2 AM on the designated MONDAY for your zone.

While the actual collections will take more than one day in a given zone, once the truck has completed collection on your street, it will NOT return.

BULK ITEMS THAT WILL NOT BE TAKEN

The following items MAY NOT be put out with bulk and MAY NOT be brought to the DPW Yard at any time. You must arrange for a private disposal company to remove the following items:

- **Construction debris** and materials, such as sheet rock, concrete, brick, lumber, plaster, roof shingles and other roofing materials, garage doors, etc.
- **Certain Household appliances**— refrigerators, dehumidifiers, and A/C units.
- **Firewood**, logs, trees, stumps, tree parts or any other type of garden waste
- **Cardboard** and similar packing materials will not be collected, as they are to be recycled on the regular recycling day. Please see additional information under **Recycling Collection on Page 19 of this calendar**.

ADDITIONAL PUBLIC WORKS INFORMATION

The following additional Public Works related information is offered for your reference and use:

1. STREET LIGHTS:

The Borough pays for all street lighting, on both Borough and Union County streets. Even when an individual light is burned out it still appears on the bill. When a light is on all day long it usually means that the photoelectric cell, which activates the light, has burned out and the light itself will soon burn out. All residents are strongly encouraged to please report burned out street lights, or lights on all day long, by calling 1-888-LIGHTSS (1-888-544-4877) or go to www.firstenergycorp.com. Report the utility pole number (Example: NP786E) found on the tag at "eye height," and its location (Example: corner of Livingston Ave. and Fourth St. or # XYZ Springfield Ave.)

2. TRAFFIC SIGNALS:

All traffic signals in the Borough, except for the New Jersey Transit crossing gates and signals, even when located on Union County streets, are owned and maintained by the Borough. Due to the virtual necessity of these signals and the resultant liability if they are not fully functioning, please report any burned out traffic signal bulbs or any other unusual condition to the Police Department by telephoning, as soon as possible, (908) 665-1111. Each reported condition will be immediately checked out and repaired as soon as possible thereafter by either the Public Works Department or contractor.

3. POTHOLE AND ADVERSE ROAD CONDITIONS:

Mountain Avenue, Passaic Street, Springfield Avenue and South Street are Union County streets and are maintained by The County of Union Department of Public Works. All other streets are Borough owned and maintained by the Borough of New Providence Department of Public Works.

Please report all potholes and any other adverse street or roadway conditions via our website, www.newprov.org or by telephoning ONE of the following two telephone numbers:

Borough Department of Public Works: (908) 665-1076
Union County Department of Public Works: (908) 789-3660

As a resident, business, or other member of the New Jersey community, it is important to know these easy things you can do every day to protect our water.

Limit your use of fertilizers and pesticides

- Do a soil test to see if you need a fertilizer.
- Do not apply fertilizers if heavy rain is predicted.
- Look into alternatives for pesticides.
- Maintain a small lawn and keep the rest of your property or yard in a natural state with trees and other native vegetation that require little or no fertilizer.
- If you use fertilizers and pesticides, follow the instructions on the label on how to correctly apply it.
- Make sure you properly store or discard any unused portions.

Properly use and dispose of hazardous products

- Hazardous products include some household or commercial cleaning products, lawn and garden care products, motor oil, antifreeze and paints.
- Do not pour any hazardous products down a storm drain because storm drains are usually connected to local water bodies and the water is not treated.
- If you have hazardous products in your home or workplace, make sure you store or dispose of them properly. Read the label for guidance.
- Use natural or less toxic alternatives when possible.
- Recycle used motor oil.
- Contact your municipality, county or facility management office for the locations of hazardous-waste disposal facilities. (see page 19)

Keep pollution out of storm drains

- Municipalities and many other public agencies are required to mark certain storm drain inlets with messages reminding people that storm drains are connected to local water bodies.
- Do not let sewage or other wastes flow into a stormwater system. Clean up after your pet.
- Many municipalities and public agencies must enact and enforce local pet-waste rules.
- An example is requiring pet owners or their keepers to pick up and properly dispose of pet waste dropped on public or other people's property.
- Make sure you know your town's or other agency's requirements and comply with them. It's the law. And remember to:
 - Use newspaper, bags, or pooper-scoopers to pick up wastes.
 - Dispose of the wrapped pet waste in the trash or unwrapped in a toilet.
 - Never discard pet waste in a storm drain.

Don't feed wildlife

- Do not feed wildlife, such as ducks and geese, in public areas.
- Many municipalities and other public agencies must enact and enforce a rule that prohibits wildlife feeding in these areas.

Dispose of yard waste properly

- Keep leaves and grass out of storm drains.
- If your municipality or agency has yard waste collection rules, follow them.
- Use leaves and grass clippings as a resource for compost.
- Use a mulching mower that recycles grass clippings into the lawn

Don't litter

- Place litter in trash receptacles.
- Recycle. Recycle. Recycle.
- Participate in community cleanups.

A Guide to Healthy Habits for Cleaner Water

Pollution on streets, parking lots and lawns is washed by rain into storm drains, then directly to our drinking water supplies and the ocean and lakes our children play in. Fertilizer, oil, pesticides, detergents, pet waste, grass clippings: you name it and it ends up in our water.

Stormwater pollution is one of New Jersey's greatest threats to clean and plentiful water, and that's why we're all doing something about it.

By sharing the responsibility and making small, easy changes in our daily lives, we can keep common pollutants out of stormwater. It all adds up to cleaner water, and it saves the high cost of cleaning up once it's dirty.

As part of New Jersey's initiative to keep our water clean and plentiful and to meet federal requirements, many municipalities and other public agencies including colleges and military bases must adopt ordinances or other rules prohibiting various activities that contribute to stormwater pollution. Breaking these rules can result in fines or other penalties.
